## REDUCED ENVIRONMENTAL IMPACT

This product does not pose any exposure risks associated with the substances listed in California Proposition 65  
No added flame retardant chemicals - AB2998 Compliant  
No added biocides  
Phthalate Free  
Carbon Neutral Certified

## FLAMMABILITY REQUIREMENTS

California Fire Code Technical Bulletin No. 117-2013  
NFPA 260  
UFAC Class I

## PERMABLOK PLUS+ CARE & CLEANING

Regular cleaning is a vital step in extending the lifespan of the upholstery, and preventing dirt and contamination from building up and stains becoming permanent. If there is a spill, follow the cleaning instructions below:

1. Wipe off any excess immediately with a dry white cloth or fabric, but be careful no the spread across the surface.
2. Clean the entire surface in a circular motion using liquid hand soap (pH neutral) and water. (1 part soap to 9 parts water).
3. Wipe with a clean damp cloth to get rid of any excess soap.
4. Repeat as necessary and then let dry.

If any build-up or staining that cannot be removed with soapy water, use as a last resort the following mixture: 1 part isopropyl alcohol to 9 parts water. (Take note that using alcohol on a regular basis can affect the properties of the product).

**DISINFECTANTS:** There is a wide variety of available biocides that include bleaches, peroxides and quaternary ammonium products, among others. These disinfectants should always be used at the recommended dilution, never in concentrated form. To prolong the life of coated fabric, the disinfectants should be rinsed off after each use. It should be noted that misuse of disinfectants is the major source of surface deterioration
