CARE & CLEANING

Prompt Cleaning is Always Recommended

WS - Spot clean with an upholstery shampoo, foam from a mild detergent, or mild dry cleaning solvent. Pretest a small, inconspicuous area before proceeding. Do not saturate. Pile goods may require brushing with a non-metallic, stiff bristle brush to restore appearance. Hot water extraction/steam cleaning is not a recommended cleaning method. To prevent overall soiling, frequent vacuuming to remove dust and grime is recommended. When cleaning a spill, blot immediately to remove spilled material. Clean spots or stains from the outside to the middle of affected area to prevent circling. Use a professional furniture cleaning service when an overall soiled condition has been reached.
