CARE & CLEANING

PROMPT CLEANING IS ALWAYS RECOMMENDED. CLEANING STEPS ARE LISTED BY TYPE OF STAIN.

REGULAR CLEANING AND MAINTENANCE (Dirt & Grime)

Clean the soiled area with mild soap and water, then rinse with fresh water and wipe dry with a clean cloth.

FOOD STAINS / OILS (Mustard, Ketchup, Chocolate, Coffee/Tea, & Salad Dressing)

Wipe affected area with a soft cloth with appropriate pressure. If some stain persists, clean with mild soap and water. Rinse with fresh water and wipe dry.

HEALTHCARE / DISINFECTION (Blood, Urine, & Betadine)

Wipe the affected area with a soft cloth with appropriate pressure. If some stain persists, spray with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry. May also be disinfected with a 20% dilution of bleach.

INK MARKS / GRAFFITI (Ballpoint Pen & Permanent Marker)

Rub the affected area with a soft dry cloth with firm pressure. If some stain is still present, spray it with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and dry.

DENIM DYE TRANSFER (Blue Jeans)

This material is designed to withstand the transfer of most types of Indigo Dye. In cases where faint denim dye transfer is visible, this can typically be removed with a 70% dilution of isopropyl alcohol and water.
